

INDICE DEI CAPITOLI

Endocannabinoid system and cannabinoids : principles of pharmacology

Anna Lauritano, Fabiana Piscitelli, Katarzyna Starowicz, Natalia Malek

Cannabinoids exposure in vulnerable period of brain development. Preclinical evidence

Roberto Frau, Miriam Melis

Cannabinoids and emotionality. Lessons from preclinical research

Brandon Richardson, Courtney Clarke, Francis R. Bambico

Animal models of cannabinoid reward

Sara R. Westbrook, Max W. Melville, Lydia N. Baxter-Potter, Ryan J. McLaughlin

Endocannabinoid-like compounds and their influence in chronic diseases and their comorbidities Focus on N-palmitoylethanolamide

Serena Boccella, Andrea M. Morace, Federica Ricciardi, Antimo Fusco, Michela Perrone, Rosmara Infantino, Ida Marabese, Enza Palazzo, Livio Luongo, Francesca Guida, Francesca Gargano, Sabatino Maione

Lessons learned from studies of the acute effects of cannabinoids on human health

Daniele Cavaleri, Giuseppe Carrà, Francesco Bartoli

Epidemiological evidence of the risk of severe mental disorders in the context of cannabis use

Branko Ristic, Sarah Tosato

Cannabinoids and psychopathology. Evidence from the real world

Franca Ceci, Nicola Ciraselli, Claudia Certelli, Giovanni Martinotti

Synthetic cannabinoids , the largest and most diverse group of novel psychoactive substances

Duccio P. Papanti, Laura Orsolini, John M. Corkery, Stefania Chiappini, Amira Guirguis, Alessandro Vento, Fabrizio Schifano

Is there a role for cannabinoids in cognitive function?

Laura Ferraro

Neurobiological underpinnings of the effects of cannabinoids

Enrico Bonomo, Daniele Pagliaro, Marco Colizzi

Evidence for endocannabinoid -like compound supplementation for human health

Riccardo Bortoletto, Carla Comacchio, Matteo Balestrieri, Marco Colizzi

Cannabis-based and cannabis-derived therapeutic options

Aisling O'Neill

Cannabis for medical use: considerations on current legislation

Francesca Baratta, Paola Brusa

Cannabinoid research. A look back and a look forward

Vincenzo Di Marzo
